Although we may suspect an Idaho spring full of wind and wet weather at least we will have equal days and nights! Which I believe will cause everyone to get a little excited.

Hopefully excitement about spring will return to everyone, because we have a month packed full of new beginnings and celebrations!

The Bank of Idaho Show kicks off the first celebration of the month with an artist's reception on **March 1st** from 1:00 to 4:00pm at the Guild. **A very special thanks to the Bank of Idaho for sponsoring the show as well as the parents, teachers and students that make it all possible!!! It Really takes a lot of cooperation and effort to make a show of this magnitude come together.**

I have some more "shout outs" for Charlotte, Joe, Les, Crystal, Ron, Neil, Richard, Roger, Lori, Manell, Mike, Deanna, Jane, myself and so many more who have contributed this month by hanging art, working as docents and for donating /contributing to the Guild in so many ways.

Other important dates to remember this month are **March 8th** (kid's classes and the last day of the Bank of Idaho Show). **March 11th** is the membership meeting. We have some exciting things we will be giving to you, so please **DO NOT** miss it! On **March 18th** Gloria Miller Allen will be talking about her experience as artist in residency at the Grand Canyon as well as some tips and tricks for recreating this natural majesty. **March 25th through April 5th** will be another celebration with the Helen Aupperle Show and the artist's reception to wrap up the month on **March 29th** from 1:00pm to 4:00pm.

It is a **very exciting month** and I hope to see all of you at some point throughout the month! Many happy spring days ahead for you!

Thank You, Your President; *Kamber Weninger*

If you can please take over as their instructor or can even do one or two of the classes it would be greatly appreciated. This is one position we really need filled so our Senior Citizens can keep having classes. They very much enjoy them and would be very disappointed if we can't provide them. If you can help out please contact any of the board members or officers as soon as possible. Thank you

Mike Evans: Mike is a mechanical engineer and is native to Nebraska. He says he likes to spend time creating in the sanctuary of his garage and loves fishing. During adolescence he was inspired by an artist named, standing Solder who painted horses. Mike and his friends decided to try drawing after seeing Standing Solder's work and has created artwork ever since. Mike has worked in many mediums including photography, oils and carving. He currently works in scratchboard, woodwork and makes fishing lures. Mike is looking forward to meeting others artist and learning new

Bruce Campbell: Bruce's medium is photography. He started his photography in Viet Nam in the 60s. He didn't get back into it until camping in the white clouds and being inspired by their beauty about 7 years ago. Bruce hopes to meet some fellow Guild members to exchange information and experiences with. He has worked at Basic American Foods in Shelly for 47 years. In his spare time he enjoys camping, bow hunting, hiking four wheeling and doing his photography. He donates to many charities such as the Humane Society, the Elks Foundation, Search & Rescue and donates monthly to the Eagles. Bruce loves capturing nature in it's natural beauty. That's why his photos are untouched. He hopes to retire soon to do what he loves best which is traveling and photography.

A New Addition To Our Newsletter

We are adding a new section to the newsletter where Guild members will be able to share ideas that they have come across or discovered on their own that may help others.

Helpful Ideas and Suggestions

1. Paint what you see not what you know. For example when you paint a tree you should paint the shapes you see and not the tree. If you paint what you know you will paint what you think a tree is and not what you are seeing.
2. Remember clouds have perspective also. Clouds closer to the horizon are smaller than those over head.
3. Usually in oil painting the darks are painted thinner than the lights.
4. When painting darks don't forget to adjust the temperature (either cool or warm) to match your painting.

Submit your ideas to Roger Bradley at rogerb.fp@gmail.com
